

- Q. How do I know if my score is as high as it should be? A. See table below.
 Q. What should I do if it isn't? A. For starters, take the ACT SuperCourse!!

11th grade G.P.A. vs. 11th grade A.C.T. Composite Scores vs. 11th grade P.S.A.T. Scores

<u>If your G.P.A. is:</u>	<u>Your A.C.T. score should be equal to or greater than:</u>	<u>Your P.S.A.T. reading + math total should be equal to or greater than:</u>
4.0+	30+	134+
3.9	29	130
3.8	28	126
3.7	27	122
3.6	26	119
3.5	25	115
3.4	24	111
3.3	23	107
3.2	22	103
3.1	21	99
< 3.1	21*	99

*21 is the national average A.C.T. Composite Score. As such, I do not want any of my students to have a score below 21 as her or his goal. This table is based on a study jointly published by the A.C.T. and the College Board (S.A.T.) in June 2008.
