

IEP (Individualized Education Program), Section 504 Plan, or students with other accommodation plans should not take this course.

Such students are usually eligible for 50% more time to complete each section of the test. The strategies taught during the regular course take into consideration the regular time restrictions. Many of these strategies are, therefore, not recommended for a student granted extra time. To avoid conflicts, these students should participate in a Combined DVD/Supplemental Tutoring Option. This is a customized preparation program. Every situation is different. Please call Mr. Diccio for pricing information. 330-755-2710.
